

The following has come to our attention and we would like to make all IAME X30 engine owners and engine tuners aware of the following.

Please ensure that when purchasing engine spare parts that they are GENUINE IAME and have the IAME Markings on them.

There have been some instances that NON GENUINE parts have been replaced in the engines and your engine will be illegal.

Not only does this rule keep engines as original but also for reliability and most importantly out of the box racing.

The Following parts MUST carry the IAME MARKINGS on them.

Piston
Conrod
Balancing Shaft
Crankshaft
Gear command Balancing Shaft
Starter Ring
Engine Sprocket
Clutch Drum
Clutch Body
Starter
Reed Group and Petals
Carburettor inlet Conveyor
Carburettor
Exhaust Silencer
Exhaust Header
Radiator
Stator
Clutch Cover and H.T. Coil
Bendix Cover

If these parts do not carry the IAME markings on them it will make your engine ILLEGAL under AKA rules.

The X30 Homologation Document clearly shows photo's of all spare parts with the IAME Markings - Go to the "X30 Rules and Homologation link" in the Tech section of our website.

Not only does this rule keep engines AS ORIGINAL and AFFORDABLE to the karter, but also for RELIABILITY and most importantly OUT-OF-THE-BOX racing, keeping it affordable and fair for everyone.
